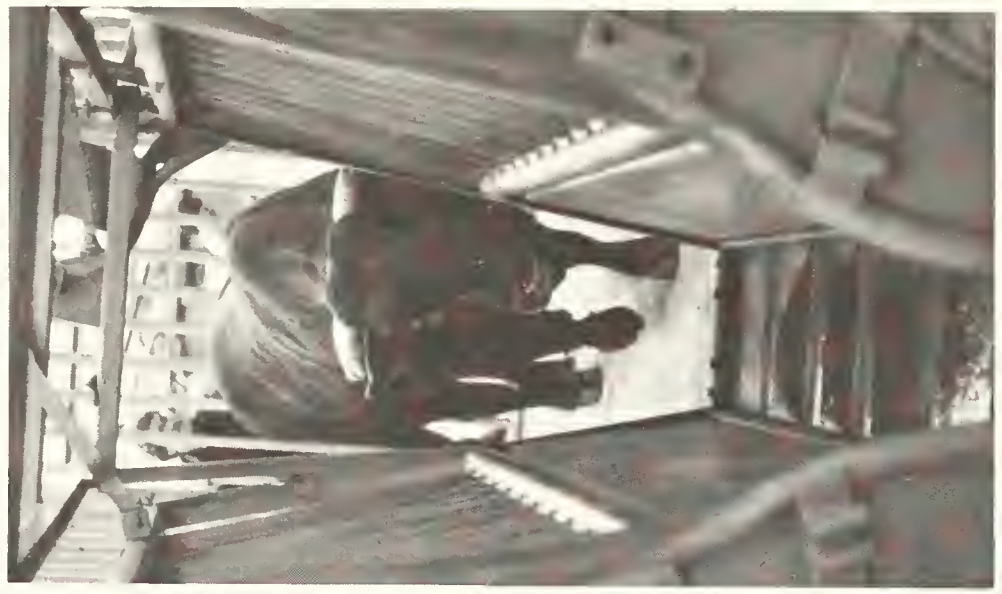
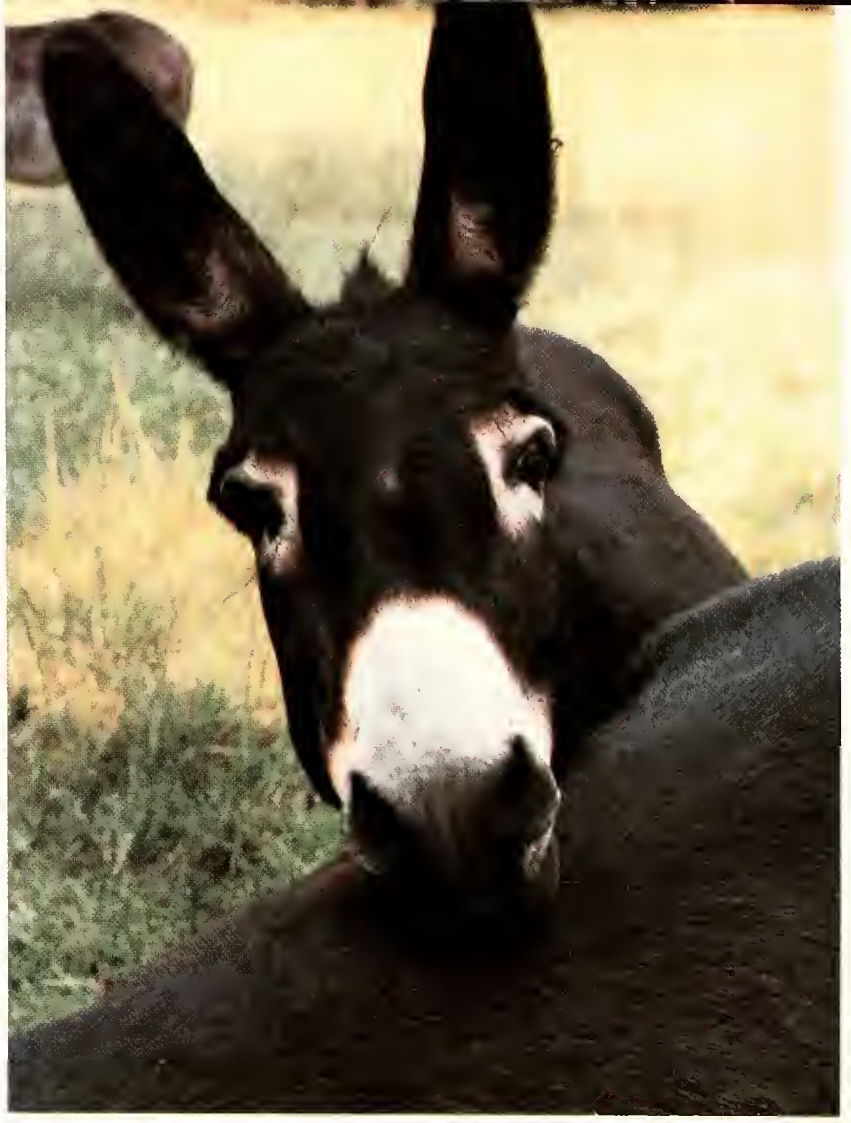
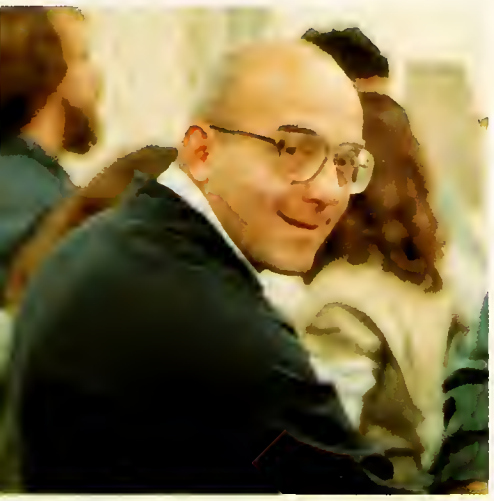
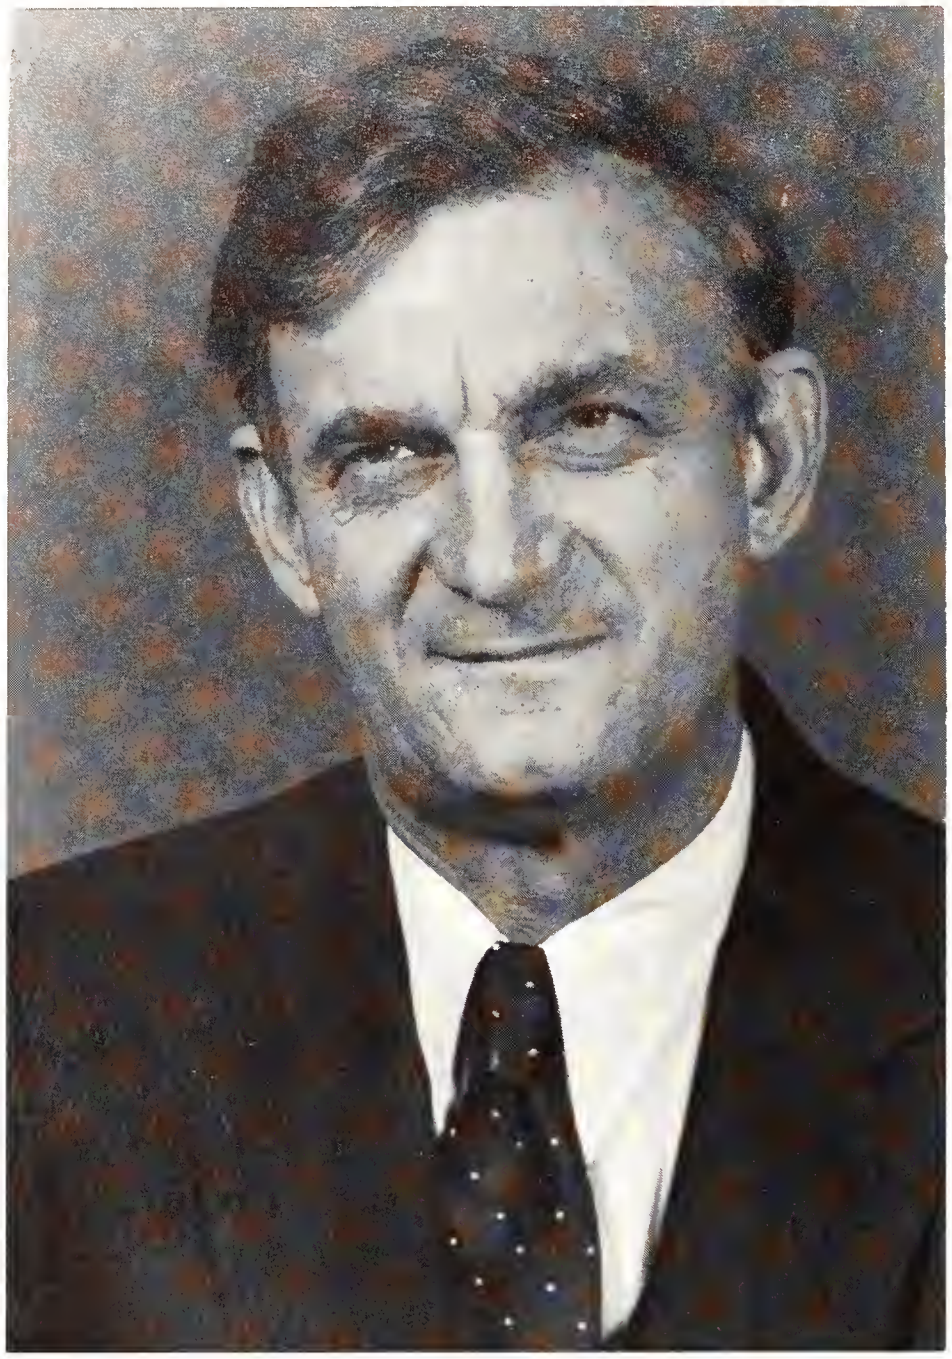
AU









Those who place before our minds new
worlds to conquer,
Who with patience tried to the very end,
Who wait to help the stumbling,
Who light the way to knowledge with a
beckoning gleam,
Who guide —
Mankind calls these "teacher."

Those who disregard the wall between
adult — child and maturity, and
Meet us in friendship,
Who seek out in each individual, bringing
each into his own,
Who understand —
Mankind calls these "friend."

In leaving, we must say good-bye to
you who are both of these for us,
You who are not left behind;
You walk with us into the future,
In the best of us,
In the best you found and shaped.
This best we will give to the future —
Through you.

The Class of 1983
proudly dedicates this year's Veterinarius
to
Dr. Dilmus M. Blackmon

The staff of the 1983 Veterinarius would like to extend its warmest sympathy to the family, friends and colleagues of the late Dr. Caswell Eidson. Dr. Eidson was a distinguished member of the Department of Avian Medicine. Since 1961 he worked in poultry disease research and was instrumental in the development of the Marek's Disease vaccine. In 1983 he was appointed Alumni Foundation Distinguished Professor of Avian Medicine. Dr. Eidson will be missed by everyone here at the College of Veterinary Medicine.

As a closing note for the 1983 Veterinarius I would like to extend a special note of thanks to everyone who worked hard to put the book together. Thanks, thanks, thanks, thanks, . . . thanks!! We had a fantastic staff and everyone deserves alot of credit. It couldn't have been done without the special talents of people like Juan and Nancy or the hard work of Wayne, Steve, Alison, Bran and all the section editors. The help and support of John Parker from Josten's Yearbook was something we could not have done without. Thanks also to all the faculty, staff and students for patience, supprt, enthusiasm and smiling faces! Enjoy!

Judy

THE DISCOVERERS OF THE SEMI-SYNTHETIC PENICILLINS.

WORKING FOR YOU ON BOTH SIDES OF YOUR PRACTICE.

Professional side.

Be assured of receiving quality-tested pharmaceuticals that complement your high professional standards. Be in contact with a professional representative who has thorough product and market knowledge that can be helpful in discussing specific patient problems. Be certain that your surgical instruments are of reliable craftsmanship, from Weck, and that precision readiness is maintained through an efficient repair service, free per warranty conditions.

Business side.

To help build and maintain a profitable practice, Squibb offers you many money-saving opportunities. Save through low, direct-buying prices and by combined-buying of selected products tailored to your specific practice. Price advantages can be yours without overstocking.

We invite your inquiries. Contact a Squibb representative or write to Product Manager (address below).

Let Gaines® help you teach your clients a lesson.

The Gaines series of canine care booklets is free.

Good client education begins with you.

Your clients rely on your expertise and advice to help them care for their dogs. Unfortunately, that can cost you a lot of time and effort. But, Gaines® Dog Food can help. For over 20 years, we've been providing a way to give your clients a top-notch education. And it won't cost either of you a thing.

The Gaines canine experts developed a wide range of booklets to help you better educate your clients. The booklets are full of lessons about raising, training, grooming, and caring for puppies and dogs.

When you distribute the Gaines booklets to your clients, you're helping them care for their dogs in the best possible way. Your clients will appreciate it. And so will their dogs. To order your booklets, send us a note on your letterhead listing the titles of the booklets you want. Mail your list to the address in the certificate.

Titles

Housetraining Puppies and Dogs • How to Control Worms in Dogs • The Vaccination Story • Feeding Your Dog Right • What Every Good Dog Should Know • Guide to Grooming • Welcoming Your New Puppy • First Aid for Dogs • The Brood Bitch and Puppies • Is Your Dog Overweight? • Where to Buy, Board or Train a Dog • Our Pet's Health Record.

Providing a full range of pet owner booklets is just part of the commitment Gaines has made to improving the quality of animal care and nutrition. Gaines makes an extensive line of quality dog foods—dry, soft-moist, and canned. Gaines foods are nutritionally balanced to meet the needs of all kinds of dogs. And, all Gaines foods are available at a discount if you enroll in our Feeder Plan. It's a great way to save time and money. Up to hundreds of dollars each year. If you're interested, just check the box in the certificate.

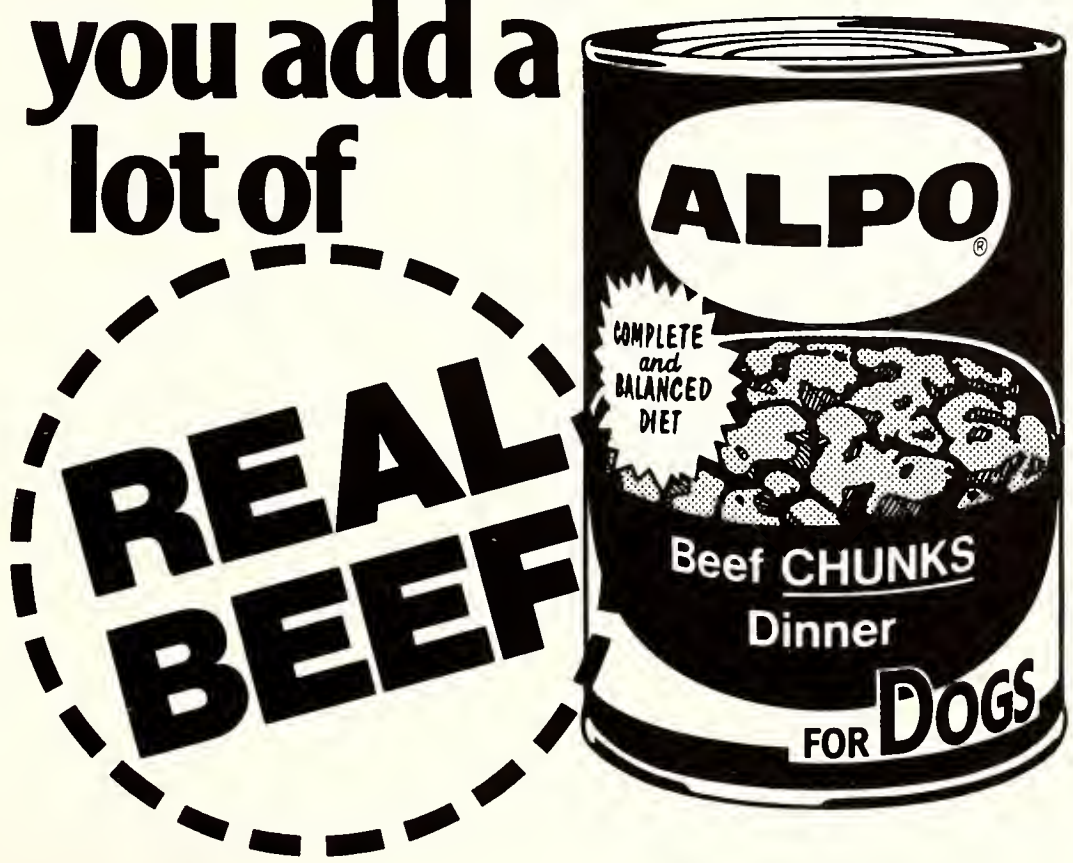
Page B/W Bleed

When you add a little of this, you add a lot of



You've got a kennelful of meat-lovers. And there's nothing more likely to make them grateful than adding some ALPO to their dry.

ALPO Beef Chunks Dinner gives them what most other dog foods don't. Lots of real beef, plus hearty meat by-products. Soy for better balance. And vitamins and minerals to complement the nutrition of your present feed. You can also serve it as a complete ration straight from the can. Either way, don't champions like yours deserve at least a little ALPO?

The parvo claim game.

You don't control parvo with *laboratory claims* for high serum neutralization antibody titer levels.

Parvo is too resistant for that; too highly concentrated in fecal matter, too easily transmitted.

To win against parvo you need a vaccine that protects patients against virulent disease challenge.

The vaccine? 'Vanguard'. Proof?

Instead of resting on titer claims, Norden went on to put 'Vanguard' CPV through "real world" testing — with a challenge virus so infective that 100% of controls developed typical signs of CPV enteritis. Meanwhile, despite the severity of challenge, 100% of vaccinates remained clinically normal. All attempts at virus recovery from vaccinates also were uniformly negative — further evidence of the high level protection provided.*

Offer your clients the proven protection of 'Vanguard' — the first federally-licensed combination vaccine with a modified live, canine origin parvovirus antigen. Available from your Norden branch to meet your practice situation: single antigen or in combinations with distemper, CAV-2, parainfluenza and leptospira.

*Bas, [illegible] M. A., Beckenhauer, W. H.: Development of a modified live canine parvovirus vaccine. JAVMA Vol. 181, No. 9, Nov. 1, 1982.
